

DOUGLAS

Classic and comfortable, the Douglas collection offers the highest levels of comfort but alongside its traditional appearance are some exciting high-tech features.

All power recline models come with USB charging ports to help you stay connected. You can choose to customise your chair or sofa by adding heated seats, a power head tilt, lumbar support or all three. Or you could opt for manual recline or static versions instead.

Choice is everything when it comes to Douglas and it comes in a wide selection of leathers, fabrics, colours and finishes so you can create the sofa or chair of your dreams.

LONG LIVE THE LAZY™
