

Cleveland

Cleveland's classic style makes your comfort the top priority. The pocket-sprung seats are topped with foam giving you an irresistible spot to sink into whenever you need to take time to relax.

But there's more to Cleveland than meets the eye. As well as the traditional static models, there is also a manual recliner and power recliner option available. And the power recliner comes with USB-C charging ports and the option of adding adjustable headrests, heated seats and lumbar support.

You can also choose to add a console unit, which comes with wireless charging, cup holders and even a mini fridge to keep your drinks cool as you unwind.

Available in leather, fabric or chenille, the Cleveland range includes corner configurations, a three-seater sofa, two-seater sofa, chair, footstool and storage footstool. Cleveland is exclusively available from Sofology.
