

Logan

Spacious and stylish, the Logan range is built with rest, relaxation and rejuvenation in mind. One of Logan's biggest strengths is its versatility - you can use the modular units to custom-build a corner unit to meet your family's needs or choose from the stunning selection of chairs and sofas.

There's even hidden side storage in the arms of your chairs and sofas to help you keep your home free from clutter while you unwind. The collection offers both static and power recline options and you can add heated seats and a head tilt to powered models if you wish.

Choose from a two-seater sofa, three-seater sofa, customisable corner group, armchair, accent chair and storage footstool to complete your living space.
